FORM 44-101F1
SHORT FORM PROSPECTUS

INSTRUCTIONS

- (1) *The objective of the short form prospectus is to provide information concerning the issuer that an investor needs in order to make an informed investment decision. This Form sets out specific disclosure requirements that are in addition to the general requirement under securities legislation to provide full, true and plain disclosure of all material facts relating to the securities to be distributed. Certain rules of specific application impose prospectus disclosure obligations in addition to those described in this Form.*
- (2) *Terms used and not defined in this Form that are defined or interpreted in the Instrument or NI 41-101 bear that definition or interpretation. Other definitions are set out in NI 14-101.*
- (3) *In determining the degree of detail required, a standard of materiality must be applied. Materiality is a matter of judgement in the particular circumstance, and is determined in relation to an item's significance to investors, analysts and other users of information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the issuer's securities. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items must be considered individually rather than on a net basis, if the items have an offsetting effect.*
- (4) *Unless an item specifically requires disclosure only in the preliminary short form prospectus, the disclosure requirements set out in this Form apply to both the preliminary short form prospectus and the short form prospectus. Details concerning the price and other matters dependent upon or relating to price, such as the number of securities being distributed, may be left out of the preliminary short form prospectus, along with specifics concerning the plan of distribution, to the extent that these matters have not been decided.*
- (5) *Any information required in a short form prospectus may be incorporated by reference in the short form prospectus, other than confidential material change reports. Clearly identify in a short form prospectus any document incorporated by reference. If an excerpt of a document is incorporated by reference, clearly identify the excerpt in the short form prospectus by caption and paragraph of the document. Any material incorporated by reference in a short form prospectus is required under sections 4.1 and 4.2 of the Instrument to be filed with the short form prospectus unless it has been previously filed.*

- (6) *The disclosure must be understandable to readers and presented in an easy-to-read format. The presentation of information should comply with the plain language principles listed in section 4.2 of Companion Policy 44-101CP Short Form Prospectus Distributions. If technical terms are required, clear and concise explanations should be included.*
- (7) *No reference need be made to inapplicable items and, unless otherwise required in this Form, negative answers to items may be omitted.*
- (8) *Where the term “issuer” is used, it may be necessary, in order to meet the requirement for full, true and plain disclosure of all material facts, to also include disclosure with respect to persons or companies that the issuer is required, under the issuer’s GAAP, to consolidate, proportionately consolidate or account for using the equity method (for example, including “subsidiaries” as that term is used in Canadian GAAP applicable to publicly accountable enterprises). If it is more likely than not that a person or company will become an entity that the issuer will be required, under the issuer’s GAAP, to consolidate, proportionately consolidate or account for using the equity method, it may be necessary to also include disclosure with respect to the person or company.*
- (9) *An issuer that is a special purpose entity may have to modify the disclosure items to reflect the special purpose nature of its business.*
- (10) *If disclosure is required as of a specific date and there has been a material change or change that is otherwise significant in the required information subsequent to that date, present the information as of the date of the change or a date subsequent to the change instead.*
- (11) *If the term “class” is used in any item to describe securities, the term includes a series of a class.*
- (12) *Disclosure in a preliminary short form prospectus or short form prospectus must be consistent with NI 51-101 if the issuer is engaged in oil and gas activities (as defined in NI 51-101).*
- (13) *Forward-looking information included in a short form prospectus must comply with section 4A.2 of NI 51-102 and must include the disclosure described in section 4A.3 of NI 51-102. In addition to the foregoing, FOFI or a financial outlook, each as defined in NI 51-102, included in a short form prospectus must comply with Part 4B of NI 51-102. If the forward-looking information relates to an issuer or other entity that is not a reporting issuer, section 4A.2, section 4A.3 and Part 4B of NI 51-102 apply as if the issuer or other entity were a reporting issuer.*

- (14) *If an issuer discloses financial information in a short form prospectus in a currency other than the Canadian dollar, prominently display the presentation currency.*
- (15) *Except as otherwise required or permitted, include information in a narrative form. The issuer may include graphs, photographs, maps, artwork or other forms of illustration, if relevant to the business of the issuer or the distribution and not misleading. Include descriptive headings. Except for information that appears in a summary, information required under more than one Item need not be repeated.*
- (16) *Certain requirements in this Form make reference to requirements in another instrument or form. Unless this Form states otherwise, issuers must also follow the instructions or requirements in the other instrument or form.*
- (17) *Wherever this Form uses the word “subsidiary”, the term includes companies and other types of business organizations such as partnerships, trusts, and other unincorporated business entities.*
- (18) *Issuers must supplement any disclosure incorporated by reference into a short form prospectus if that supplemented disclosure is necessary to ensure that the short form prospectus provides full, true and plain disclosure of all material facts related to the securities to be distributed as required under Item 18 of this Form.*

5.5.1 Approvals – If the proceeds of the distribution will be used to substantially fund a material undertaking that would constitute a material departure from the business or operations of the issuer and the issuer has not obtained all material licences, registrations and approvals necessary for the stated principal use of proceeds, include a statement that

- (a) the issuer must appoint a registered dealer authorized to make the distribution, a Canadian financial institution, or a lawyer who is a practicing member in good standing with a law society of a jurisdiction in which the securities are being distributed, or a notary in Québec, to hold in trust all funds received from subscriptions until all material licences, registrations and approvals necessary for the stated principal use of proceeds have been obtained, and
- (b) if all material licences, registrations and approvals necessary for the operation of the material undertaking have not been obtained within 90 days from the date of receipt of the final short form prospectus, the trustee must return the funds to subscribers.

5.6 Reduced Price Distributions – If the underwriter may decrease the offering price after the underwriter has made a reasonable effort to sell all of the securities at the initial offering price disclosed in the short form prospectus in accordance with the procedures permitted by the Instrument, disclose this fact and that the compensation realised by the underwriter will be decreased by the amount that the aggregate price paid by purchasers for the securities is less than the gross proceeds paid by the underwriter to the issuer or selling securityholder.

5.7 Listing Application – If application has been made to list or quote the securities being distributed, include a statement in substantially the following form with the bracketed information completed:

5.9 Constraints – If there are constraints imposed on the ownership of securities of the issuer to ensure that the issuer has a required level of Canadian ownership, describe the mechanism, if any, by which the level of Canadian ownership of the securities of the issuer will be monitored and maintained.

5.10 Special Warrants Acquired by Underwriters or Agents – Disclose the number and dollar value of any special warrants acquired by any underwriter or agent and the percentage of the distribution represented by those special warrants.

Item 6 – Earnings Coverage Ratios

6.1 Earnings Coverage Ratios

- (1) If the securities being distributed are debt securities having a term to maturity in excess of one year or are preferred shares, disclose the following earnings coverage ratios adjusted in accordance with subsection (2):
 - (a) the earnings coverage ratio based on the most recent 12 month period included in the issuer’s current annual financial statements included in the short form prospectus,
 - (b) if there has been a change in year end and the issuer’s most recent financial year is less than nine months in length, the earnings coverage calculation for its old financial year, and
 - (c) the earnings coverage ratio based on the 12-month period ended on the last day of the most recently completed period for which an interim financial report of the issuer has been included in the short form prospectus.
- (2) Adjust the ratios referred to in subsection (1) to reflect
 - (a) the issuance of the securities being distributed under the short form prospectus, based on the price at which these securities are expected to be distributed;
 - (b) in the case of a distribution of preferred shares,

- (i) the issuance of all preferred shares since the date of the annual financial statements or interim financial report, and
 - (ii) the repurchase, redemption or other retirement of all preferred shares repurchased, redeemed, or otherwise retired since the date of the annual financial statements or interim financial report and of all preferred shares to be repurchased, redeemed, or otherwise retired from the proceeds to be realized from the sale of securities under the short form prospectus;
- (c) the issuance of all financial liabilities, as defined in accordance with the issuer's GAAP since the date of the annual financial statements or interim financial report; and
- (d) the repayment, redemption or other retirement of all financial liabilities, as defined in accordance with the issuer's GAAP, since the date of the annual financial statements or interim financial report and all financial liabilities to be repaid or redeemed from the proceeds to be realized from the sale of securities distributed under the short form prospectus.
- (4) If the earnings coverage ratio is less than one-to-one, disclose in the short form prospectus the dollar amount of the numerator required to achieve a ratio of one-to-one.
- (5) If the short form prospectus includes a *pro forma* income statement, calculate the *pro forma* earnings coverage ratios for the periods of the *pro forma* income statement, and disclose them in the short form prospectus.

INSTRUCTIONS

- (1) *Cash flow coverage may be disclosed but only as a supplement to earnings coverage and only if the method of calculation is fully disclosed.*
- (2) *Earnings coverage is calculated by dividing an entity's profit or loss attributable to owners of the parent (the numerator) by its borrowing costs and dividend obligations (the denominator).*
- (3) *For the earnings coverage calculation*
- (a) *the numerator should be calculated using consolidated profit or loss attributable to owners of the parent before borrowing costs and income taxes;*
 - (b) *imputed interest income from the proceeds of a distribution should not be added to the numerator;*

- (d) *for distributions of debt securities, the appropriate denominator is borrowing costs, after giving effect to the new debt securities issue and any retirement of obligations, plus the borrowing costs that have been capitalized during the period;*
 - (e) *for distributions of preferred shares*
 - (i) *the appropriate denominator is dividends declared during the period, together with undeclared dividends on cumulative preferred shares, after giving effect to the new preferred share issue, plus the issuer's annual borrowing cost requirements, including the borrowing costs that have been capitalized during the period, less any retirement of obligations, and*
 - (ii) *dividends should be grossed-up to a before-tax equivalent using the issuer's effective income tax rate; and*
 - (f) *for distributions of both debt securities and preferred shares, the appropriate denominator is the same as for a preferred share issue, except that the denominator should also reflect the effect of the debt securities being offered pursuant to the short form prospectus.*
- (4) *The denominator represents a pro forma calculation of the aggregate of an issuer's borrowing cost obligations on all financial liabilities and dividend obligations (including both dividends declared and undeclared dividends on cumulative preferred shares) with respect to all outstanding preferred shares, as adjusted to reflect*
- (a) *the issuance of all financial liabilities and, in addition in the case of an issuance of preferred shares, all preferred shares issued, since the date of the annual financial statements or interim financial report;*
 - (b) *the issuance of the securities that are to be distributed under the short form prospectus, based on a reasonable estimate of the price at which these securities will be distributed; and*
 - (c) *the repayment or redemption of all financial liabilities since the date of the annual financial statements or interim financial report, all financial liabilities to be repaid or redeemed from the proceeds to be realized from the sale of securities under the short form prospectus and, in addition, in the case of an issuance of preferred shares, all preferred shares repaid or redeemed since the date of the annual financial statements or interim financial report and all preferred shares to be repaid or redeemed from the proceeds to be realized from the sale of securities under the short form prospectus.*

- (6) For debt securities, disclosure of earnings coverage shall include language similar to the following, with the bracketed and bulleted information completed:

“[Name of the issuer]’s borrowing cost requirements, after giving effect to the issue of [the debt securities to be distributed under the short form prospectus], amounted to \$• for the 12 months ended •. [Name of the issuer]’s profit or loss attributable to owners of the parent before borrowing costs and income tax for the 12 months then ended was \$•, which is • times [name of the issuer]’s borrowing cost requirements for this period.”

- (7) For preferred share issues, disclosure of earnings coverage shall include language similar to the following, with the bracketed and bulleted information completed:

“[Name of the issuer]’s dividend requirements on all of its preferred shares, after giving effect to the issue of [the preferred shares to be distributed under the short form prospectus], and adjusted to a before-tax equivalent using an effective income tax rate of •%, amounted to \$• for the 12 months ended •. [Name of the issuer]’s borrowing cost requirements for the 12 months then ended amounted to \$•. [Name of the issuer]’s profit or loss attributable to owners of the parent before borrowing costs and income tax for the 12 months ended • was \$•, which is • times [name of the issuer]’s aggregate dividend and borrowing cost requirements for this period.”

- (9) Other earnings coverage calculations may be included as supplementary disclosure to the required earnings coverage calculations outlined above as long as their derivation is disclosed and they are not given greater prominence than the required earnings coverage calculations.

- (3) *Issuers are required to summarize contractual arrangements in plain language and may not merely restate the text of the contracts referred to. “The issuer has granted to each holder of a special warrant a contractual right of rescission of the prospectus-exempt transaction under which the special warrant was initially acquired. The contractual right of rescission provides that if a holder of a special warrant who acquires another security of the issuer on exercise of the special warrant as provided for in the prospectus is, or becomes, entitled under the securities legislation of a jurisdiction to the remedy of rescission because of the short form prospectus or an amendment to the short form prospectus containing a misrepresentation,

- (a) the holder is entitled to rescission of both the holder’s exercise of its special warrant and the private placement transaction under which the special warrant was initially acquired,
- (b) the holder is entitled in connection with the rescission to a full refund of all consideration paid to the underwriter or issuer, as the case may be, on the acquisition of the special warrant, and
- (c) if the holder is a permitted assignee of the interest of the original special warrant subscriber, the holder is entitled to exercise the rights of rescission and refund as if the holder was the original subscriber.”

7.7 Restricted Securities

- (1) If the issuer has outstanding, or proposes to distribute under a short form prospectus restricted securities, subject securities or securities that are, directly or indirectly, convertible into or exercisable or exchangeable for restricted securities or subject securities, provide a detailed description of

INSTRUCTIONS

There may be factors relating to a security that are not addressed by a credit rating organization when they give a rating. For example, in the case of cash settled derivative instruments, factors in addition to the creditworthiness of the issuer, such as the continued subsistence of the underlying interest or the volatility of the price, value or level of the underlying interest may be reflected in the rating analysis. Rather than being addressed in the rating itself, these factors may be described by a credit rating organization by way of a superscript or other notation to a rating. Any such attributes must be discussed in the disclosure under this section.

A provisional rating received before the issuer's most recently completed financial year is not required to be disclosed under this section.

incorporated by reference into the short form prospectus under paragraph 1. of subsection 11.1(1), provide disclosure about the reverse takeover acquirer by complying with the following:

1. If the reverse takeover acquirer satisfies the criteria set out in paragraphs 2.2(a), (b), (c), and (d) of the Instrument, incorporate by reference into the short form prospectus all documents that would be required to be incorporated by reference under Item 11 if the reverse takeover acquirer were the issuer of the securities.
