

CSA Staff Notice 23-301**Joint Notice of the Staff of the Canadian Securities Administrators,
Market Regulation Services Inc., the Bourse de Montréal, and
the Investment Dealers Association****Electronic Audit Trails**

Under Part 11 of National Instrument 23-101 *Trading Rules* (NI 23-101), dealers must maintain certain records relating to orders and trades. As of December 31, 2003, these records must be maintained in electronic form. NI 23-101 also requires that the dealer transmit to a regulation services provider (RSP) the information as required by the RSP.¹

Market Regulation Services Inc. (RS) is the RSP for the Toronto Stock Exchange, TSX Venture Exchange, and a number of alternative trading systems. RS administers the Universal Market Integrity Rules (UMIR). Section 10.11 of UMIR requires dealers to maintain certain information relating to orders and trades.²

Canadian Securities Administrators; Staff (CSA Staff), RS, the Investment Dealers Association (IDA), and the Bourse de Montréal (the Bourse) are working together to determine the implementation plan for the electronic audit trail and the transmission requirements. To this end, we will take the following steps:

1. RS and the Bourse will determine
 - what data should be transmitted to each of them for market regulation purposes,
 - by whom, and
 - the frequency of the transmission
2. A consultation committee will be established in April to determine if there is a need to establish any joint technology standards to facilitate the implementation of the electronic audit trail requirements.
3. A survey will be sent to all relevant market participants to determine their readiness to implement an electronic audit trail and their ability to transmit this data electronically. A report will be made by June 2003.
4. After the evaluation of the survey results, the CSA Staff, RS, the Bourse, and the IDA will issue an implementation plan. The implementation plan will deal with both the electronic audit trail and the electronic transmission of data.
